Senior Landscape Architect – All offices

Make a difference to the world we are creating for future generations.

Do you want to have direct impact on the development of our ever-growing communities? Love getting involved with exciting project teams to help deliver high quality development projects? And you're mad about mentoring others?

You'll fit right in.

Working in the Landscape Planning sector, every day will be different. You'll be accountable for delivering high quality reporting and have plenty of contact with our clients – ensuring that they're on budget, on time and – most importantly – happy.

You will be responsible for moulding the shape of development with landscape at the forefront of our client's plans. From project inception and bidding stages, right through to the completion of planning documents. This will include: LVA; LVIA's; EIA's; Opportunities and Constraints Assessments; Management Plans; Method Statements; GI and Landscape Strategies and planting plans. But don't worry, you won't always be nose-deep in paperwork. We would love for you to spend time meeting with our clients to develop strong working relationships so that you can win some of your own work!

That may all sound quite traditional but at Tyler Grange, we take a creative approach to every challenge we face; the normal way of doing things isn't always the best way. So, if you enjoy getting stuck in and immersing yourself in a fast paced and energetic environment, **this job is for you.**

The tasks you'll come across will be varied to say the least. You will juggle a combination of juicy projects you can sink your teeth into and offer assistance to others in cross discipline teams. To keep up, you will need be adept at changing plans with the weather (sometimes quite literally). But, don't worry, there will be quieter moments to take stock too – perhaps over a sourdough masterclass? One thing we can guarantee is that **no day will ever be the same in your time at Tyler Grange!**

Tyler Grange Group Limited.

Registered in England No. 11435090 | VAT Reg No. 326 7564 81
Marsden Estate, Rendcomb, Cirencester, Gloucestershire, GL7 7EX

Birmingham | Cotswolds | Exeter | London | Manchester

What we're looking for:

- Academic qualifications in a relevant subject
- Excellent written ability
- Experienced in field survey work
- A good understanding of legislative and planning policy framework
- Experience liaising with clients, statutory bodies and LPAs
- First rate project management skills
- Track record of business development and winning own work
- Enthusiastic team players and proven Landscape Architects that live our values
- A commitment to the pursuit of excellence
- Excellent verbal and written communication skills
- A full UK driving licence

The icing on the cake for us would be:

- Being a Chartered member of the Landscape Institute
- Experience working in multi-disciplinary teams
- Desire to mentor team members

If you'd like to apply for this role, please send a copy of your CV and a covering letter stating why you are right for this role to tribe@tylergrange.co.uk.
