

# About: London

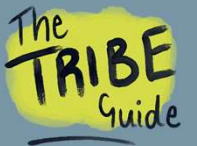

This is a shared office space which means you can network as you go.

The office has an onsite barista, so you can get your bespoke coffee fix without even leaving the building.

WiFi password: ask the WeWork front desk.

WeWork do themed events each week. Sometimes, you never know what you're about to walk into!

The office is dog-friendly, so expect our furry friends to remind you to take a break.

# London
